

# HIGHLAND

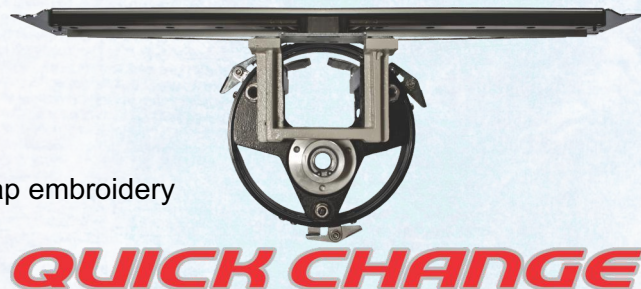

## 1201 ECHO Embroidery Machine

## Cap and Hooping System

- Save time with the Quick Change Cap and Hooping System
- Pivot axle supports the weight of the driver
- A slide bearing provides exceptional accuracy and support
- Linear motion guide rail provides smooth precise movement for cap embroidery
- Change from caps to tubular embroidery in no time
- No tools required, just snap it in

## Unbreakable Reciprocators

The **RPS Reciprocator Protection System** is included with all new Highland embroidery machines. With other embroidery machines, striking a hoop can easily break the plastic reciprocator, making your machine unusable until repaired, possibly for days if you cannot do the repair yourself. This revolutionary unbreakable reciprocator is metal, not plastic, and therefore cannot be broken by simply striking a hoop with the needle. This can save you days of down time and thousands of dollars if you accidentally strike a hoop.

## Touch Screen Control Panel

- Large 8" Color Touch Screen LCD Display
- Multitasking - switch between tasks while the machine is working
- User-friendly menu makes it easy to read and quickly identify production information
- USB Port for loading designs from USB flash drives
- Design Tracing - trace the design to ensure accurate placement before ever sewing a stitch
- Scale size of designs up or down
- Rotate or Mirror Image
- Origin Return - easily return to the starting point of the design
- Floating - Moves frame forward or backward through design without stitching
- Large on-board design memory holds 16 million stitches or 400 designs

## More Features To Love

- Large sewing field 360 x 210 mm (14.2 x 8.3 inches)
- Automatic Thread Trimmer
- Automatic Color Change
- Automatic Thread Break Detection
- Touch Screen Control Panel 8" Color LCD
- One-Touch Design Tracing
- Design/data ports: USB
- Store up to 400 designs in memory
- 16 Million Stitch Memory capacity
- 1000 stitches per minute
- Workspace Lighting
- Stitch Filtering
- 110v single phase power (standard wall plug)
- Networkable
- Built in lettering

## Five Year Limited Warranty

All Highland embroidery machines are covered by a limited five year warranty, covering all drive train components for five years, all electrical components for three years, and all non-consumable parts for one year.

**The reciprocator includes a lifetime warranty** - never pay for a replacement reciprocator for as long as you own the machine!
