OKI proColor™
pro920WT

The tabloid printer with high-quality color—including white—for graphics and textile transfers

OKI®

OKI proColor™
pro920WT

A digital color printer that delivers a new set of creative possibilities.

For transfer professionals in the high-quality short-run marketplace, staying competitive means having a printer that can deliver a lot—for less. A workhorse that turns out breathtaking output at a fast pace for just pennies per page, and fits comfortably into your existing color workflow.

Above all, as OKI understands it, your printer must be able to print true white.

The new **OKI proColor™ pro920WT** Tabloid/A3 digital color printer is the perfect solution for your on-demand printing needs, especially because white is so important to your output. The addition of white toner allows for lower-cost textile transfer media for direct imaging to fabric applications. It's also perfect for lower-cost signage and films that require white. The pro920WT combines:

- **HD (High Definition) Color printing for breathtaking output**
- **Inclusion of white toner for printing on textile/transparent media[1]**
- **White Transfer mode for specialty media, transfers and clear films**
- **Cost-efficient short-run production printing capability**

The pro920WT. Think of it as your opportunity to open doors to new business.

OKI proColor™ pro920WT Highlights:

HD Color printing technology—now with the inclusion of white toner—for increased color depth, richer hues and solid white coverage[1]

Fits seamlessly into your existing color printing workflow

Single Pass Color™ digital technology—straight-through print path handles up to 80 lb. cover (216 gsm), tabloid-extra sheets (12" x 18"), up to 12.9" x 47.24"

CMY/White print mode

1200 x 600 dpi print resolution for clear, sharp text and graphics

High-productivity print speed—up to 31 ppm Color and 36 ppm Monochrome[2]

Network connectivity standard

512 MB RAM standard and a powerful 800 MHz processor

Memory and paper capacity upgrades, optional 40 GB hard disk drive

1-Year On-Site warranty[3] for lower operating costs

The OKI proColor™ Series pro920WT Color Printer

[1] Printing white on textile substrate may require a two-step process involving heat transfer paper.
[2] Published performance results based on laboratory testing. Individual results may vary.
[3] Available in the U.S. only.

HD Color printing for breathtaking output

For the transfer industry, the pro920WT is the product that delivers consistent professional-quality output through OKI® HD Color printing technology, automatically calibrated colors, and color corrections made on the fly. The composite colors and media profiles in the pro920WT have been tuned to provide consistently vibrant images. That and up to 1200 x 600 dpi resolution enables the pro920WT to deliver fine details and stunning depth of image.

The printer also has an innovative feature allowing you to actually put down white on specialty paper and signage media, transparent film, and image transfer media.[1] You can produce T-shirt transfers, mouse pad transfers, clear cling signage media and much, much more.

Media flexibility and cost-efficiency, too

The pro920WT produces a wide range of output on a variety of media weights and sizes. Single Pass Color™ technology and a straight-through paper path deliver faster print speeds, minimal jams, and smooth handling.

Short-run production printing

The pro920WT is also a short-run production printer that easily and efficiently handles a few sheets or a few thousand, on media ranging from 20 lb. bond to 80 lb. cover (75 gsm to 216 gsm). Envelopes, letter, legal and tabloid-extra (12" x 18") sheets, 3" x 5" cards and custom sizes ranging to 12.9" x 47.24" banners. All with consistently high-quality results from first sheet to last, and from batch to batch.

The competitive advantage you're looking for

The OKI proColor Series pro920WT: high quality and reliability with low operational costs—the affordable Digital Color Printer (now with white!) for your short-run and on-demand printing needs.

An innovative feature enables the printer to apply white.

Single Pass Color™ technology and straight-through paper path handles thick paper stock and banner sheets.
